HUNDREDS AT SERVICES FOR W. B. ENOCHS

Hundreds of friends gathered at Oak Hill Memorial Park Chapel on Monday afternoon to pay final respects to William Burns Enochs, well known civic leader of Campbell who passed away suddenly Friday night while being moved to a San Jose Hospital. The end of the chapel was banked with floral offerings. The Rev. Herbert Neale, pastor of the First Methodist Church of Campbell conducted the first services, the Masonic Lodge, with Past Master Phil Snyder in charge of the second service. Lloyd Nelson sang, "Be Still, my Soul, the Lord is on My Side" and "How Firm a Foundation". Mrs. Erma Sanders was organist.

Enochs had complained of feeling ill on returning to his home at 240 South Winchester Road following a meeting with the city council, shortly afterwards collapsing apparently from a heart attack.

William Enochs was auditor for the City of Campbell. He had been auditor until 1949 for the State Board of Equalization at San Jose. He was Past Grand Master of Charity Lodge No. 362, F&AM of Campbell, a 32nd degree member of Scottish Rite Bodies of San Jose, member of the Campbell Kiwanis Club and the First Methodist Church of Campbell. He was manager since 1952 of the Campbell Stamp Association.

Born in Mississippi he attended the University of Mississippi where in 1928 he was named on the third All-American football team.

Surviving are his widow, Mary; a son and daughter, William Jr. and Barbara of Campbell; his brothers and sisters, James B. Enochs of San Jose, Mrs. Al Cadwell of Oakland, Mrs. James Reardon of Florida, Mrs. C. R. Dolmetsch of New York, Maj. Frank A. Hamilton of the Air Force, and his mother, Mrs. Virginia Burns Enochs of Mississippi.

Final services were held at 2 p. m. Monday at the Chapel of Roses, Oak Hill Memorial Park, under direction of Darling, Fischer and Krug Memorial Chapel of Campbell.

Parade, Music Feature Old Settler Celebration

Patriotic talks and band concerts which were popular civic functions in early days but which have since generally been abandoned, remain as a main function of Campbell Old Settler Day Celebrations according to Laurance J. Hill, Campbell High School superintendent, in the talk at a luncheon meteing yesterday of the Chamber of Commerce.

Hill, tracing the origin of the celebration back to 1892 indicated it started the same year the Ainsley Corporation was formed and that many of the first affairs were at the cannery plant, now known as Hunts Cannery. Along about 1895 to 1901 there was quite a land promotion project going on here with subdivisions being laid out having streets and drainage, comparable to present day subdivisions. Investors were brought here from the East and from England to take up orchard lands, the celebration tending to bring these people together. The parade idea started later on with bicycles, but at times there were tree planting and plaque presentations.

Hill said he grew up near the Winchester home, and that his mother had told him as a boy that the reason for the eccentric building there was that Mrs. Winchester had engaged a carpenter to make additions then went on a trip to Austrâlia, the builder keeping on with the job until her return. A spiritualist, she kept the man on after her return and in reality was not as eccentric as now related by guides.

Sam Cava, president of the Campbell Chamber of Commerce announced to the 42 people at the luncheon meeting that State Senator Jack Thompson is to be the speaker and parade marshall. He said there are to be many marching units and lots of band music.

The Southern Pacific Band is to give a concert at six o'clock Saturday evening and will play again later by the carnival on the Hunt Cannery grounds. Dr. Robert Jasmine, general chairman, promised an excellent parade while Dobie Jeffers reported the carnival is to be set up with about fifty booths, nearly half of which will be manned by local organizations.

Organizations wishing to have a booth should contact either Dobbie Jeffers or Ambrose Mirassou. There is a $20 fee and 20% of net three-day profits for each concession, the booths to be furnished electricity. The carnival is to be laid out in a horseshoe shape with concessions on each end, one side for carnival and the other for local groups. All the rides are to be in the middle including a ferris wheel, merry-go-round, tilt-a-whirl, octopus, merry mix-up, pony rides, kiddie auto rides, train and boat rides.

Mario Saia, chairman of the Industrial Committee, reported that a furniture factory is locating on Railroad avenue and will have an annual payroll of $50,000. He said a plastics firm has had a field representative here seeking a site and that two other industrial firms have been here for data.

Cava said the Chamber of Commerce is seeking to have Campbell on the time table as a stop on the schedule from San Jose to San Francisco via Vasona and Los Altos.

Planners Move Tonight On Rutherford Zoning

On the agenda of the Planning Commission this evening is an initiative resolution setting time and place for hearing to change the zone of the Dave Rutherford property on the northwest corner of Latimer avenue and Winchester Road from C-2-S to R-2-S. Rutherford has said the property was sold to a major oil company as commercial property, Planners contending that zoning was made only because Rutherford had asked for it that way for use when the High School took over property of his Funeral Home. As Rutherford has subsequently indicated, he does not now intend using it for that purpose, the planners allege it should be returned to its original status in keeping with zoning of adjacent properties.

Oil company representative present at a recent meeting indicate they will use the site as commercial under present zoning, planners retaliating that before doing so they must first have architectural approval.

Also on the agenda tonight will be an application to rezone the Ted Anderson property at 425 North Winchester, and to give architectural approval to Mayfair Packing Company cherry stand at Hamilton and San Jose-Los Gatos Road.

Planning Consultant Nestor Barrett is to report on plans by Commissioner Kenneth Priestly to have storm waters carried by underground pipe westerly along Latimer avenue to the Los Gatos Creek. A report on the Master Street and Highway plan is also on the agenda for a report.

Planners will resume study of the Poniatoff and Nearon subdivision plans on land adjacent to the proposed Winchester Shopping Center.

Barrett pointed out at the last meeting that at least 75% of the land will be covered, thus presenting a serious drainage problem. The Shopping center to the east will be graded to a level four feet higher than the proposed subdivision, the only drainage then for the subdivision being a holding pond at the end of the street.

APPEAL BOARD NAMES DuBOIS AS CHAIRMAN

Organization of the Board of Appeals to interpret the building code was completed Tuesday with Glen DuBois elected president and Ed Steffani as secretary. Other members are Charles Lamb, Calvin Young, Robert Curry and Jack Scott.

Recommended action on new First Methodist Church on North Winchester Road was that standby pipes are not necessary because of the nature of occupancy, but that steel beam supporting the roof of Fellowship hall be given a one hour fireproof coating to prevent twisting in the event of a fire.

Iris Society To Hold Convention

Region 14 of the American Iris Society will hold a two-day convention April 30 and May 1 at the DeAnza Hotel. A banquet is scheduled for Saturday night with a program of garden slides. Sunday the group will tour six Iris gardens and have a barbecue luncheon at Gordon's Garden in Los Gatos.

One of the gardens the group will visit will be the Knopf Iris Gardens in Campbell which has over a thousand seedlings. At the close of the tour a vote will be taken to determine the choice of the best unintroduced seedling seen during the day, and a cup awarded the winner.

During the two day convention an Iris Show will be held in the Angelo California Bank on the corner of Market and Santa Clara which will be open entries by any interested person. It is not necessary to be a member of the A. I. S.

Camp Fire Group Does Its Bit For Cancer Research

C. E. Bradley, chairman of the Cancer Crusade in the Campbell High School District, said today that if a group of young 7th grade Camp Fire Girls are so concerned about helping with the fund drive being conducted this month that they have contributed $5.00 from their own small bank account, adult citizens in this area who are well aware of the terrible effects of this deadly disease would do well to also contribute a small amount to help the drive reach its $1200 quota.

Members of the Wee-Han-Pa Camp Fire Group called Bradley Monday to say they had decided to contribute to the Cancer Crusade since an effective vaccine has now been discovered for Polio. Bradley arranged to meet the group on the steps of the Campbell Grammar School, which they all attend, and accept their check.

When presenting the check the girls said they wanted to feel they had a small part in furthering research in Cancer so that it too could be conquered in the near future.

Members of the group participating in the presentation were Carol Ann Ostermeier, Barbara Tragardh, Kaaren Furchner, Shirley Rice, Connie Loveday, Judy Peterson, Ione Hecker, Barbara Solituri, Marilyn Gilpatrick, and their leader, Mrs. Herbert Tragardh.

Bradley said only a 4% answer return has been received from the 5000 letters mailed to residents of this area and the amount collected so far is approximately $200.

Another way to give is to purchase tickets to the Footlighters play, "Good-bye My Fancy", which the Cancer Crusade s sponsoring here in the Campbell High School auditorium Friday and Saturday night of this week, April 22, 23. The cost of the ticket is less than charged by downtown theaters and every cent will go to the fund drive.

Campbell YMCA Endorses New YMCA Building

The Campbell Y. M. C. A. Committee endorsed the building plans for the new Y. M. C. A. building for Santa Clara County at its meeting Monday evening at the home of the chairman, Larry Newberry. E. Scolofsky, executive director of the Y. M. C. A., introduced the county chairman of the building campaign, L. C. Barnard, the University of California Agriculture Director for this area.

Plans for the new building to be located on the Alameda were presented together with a description of its large parking lot and accessibility to Campbell. The plans include several club rooms, facilities for women and girls, hobby and health rooms besides gymnasium, swimming and barbecue facilities to make it a family center as well as one for organizational activity.

Tom Fine, extension director for Campbell, gave his annual report showing the six Campbell High "Y" groups had participated in fifteen activities in addition to the local group programs, and 255 boys had used the "Y" in San Jose the past year. Fine introduced Richard Conzelmann who will be the new extension director for Campbell.

Others attending the meeting were Mrs. Newberry, R. B. O'Neil, V. P. Romer, John Runcie, and Mr. and Mrs. F. A. Ellis. Anyone interested in additional information on the new building plans may contact any of the above persons.

Rosemary To Hold Open House

In observance of Public School Week, Rosemary School will hold "Open House" next Tuesday evening, April 26 to allow parents to visit their children's classrooms and see work on display.

Preceeding open house, the Home and School Club will have a brief business meeting from 7:30 to 7:45 before nominating new officers for the coming year. Guest speaker will be William Henley, superintendent of the Campbell Grammar School District.

A musical program will be presented by the chorus, under the direction of Dorothy Callister and Bruce Stevenson, and the orchestra directed by Wallace Johnson.

Child care will be provided.

HAIL IN CAMPBELL

Hail pelted the Campbell-Cupertino area Monday morning spreading a white blanket which melted away after ten minutes. Farm Advisor Ed Bowles said the storm which brought rain probably did far more good than harm. It broke a six weeks drought. Small apricots might have been knocked off trees but prunes were just thinned out.

BEAT WILLOW GLEN

The Campbell Junior Varsity baseball nine scored a 7-3 win Tuesday afternoon over Willow Glen on the latter's diamond. Don Kitajima got two hits for Campbell.

FIRE DESTROYS WORKSHOP HERE

Fire of undetermined origin destroyed a workshop belonging to Thomas Pierce on Page street at nine o'clock last night.

HILL PLEASED WITH CHANGES IN ALLEN BILL

Laurance Hill, superintendent of Campbell Union High School was in Sacramento Tuesday attending a legislative committee meeting for approval with revisions of Assembly Bill No. 1 qualifying cities to annex lands without changing school jurisdiction. Hill said yesterday, the measure will have a "do pass" reference from the committee to the Senate, the Assembly already having approved the measure now having only the amendments to approve which are virtually certain.

Hill said this is a sound measure and is everything we wanted, providing:

1. That annexed territory not contiguous to the city's own school district shall in no case become part of that school district.

2. That annexed territory which is part of a unified school district (with both elementary and high school levels) shall not become part of the city's school district unless the governing boards of both districts involved agree in writing to such a plan.

Assemblyman Bruce Allen of San Jose, author of the bill, told the Senate committee that these amendments represent a compromise between A.B.1, as it was originally introduced, and an alternative bill, A.B. 2866 (Donald D. Doyle), which was favored by the State Department of Education and most educators.

The Doyle bill would have given the discretion over school boundary changes in virtually every case to school officials. Allen's amendments transfer this discretion to school officials only when the annexed land is in a unified school district.

Area Churches To Hold Fellowship Day At Montalvo

Western Santa Clara Valley Council of Church women are arranging a special program for Fellowship day at Montalvo on Friday, May 6. Fellowship day is always observed the first Friday in May.

The service topic of the year, "The Responsible Church Family" is to begin after the lunch and social hour, closing at two. Those expecting to attend are asked to bring sandwiches, at 11:30, coffee to be srved by a committee. This will afford time to look over Montalvo grounds, meet and have lunch with the ladies of other churches of Campbell, Los Gatos, Saratoga and Cupertino.

RAINFALL IS 11:03; MORE IS NEEDED

Rainfall of 11:03 inches as of 5 o'clock last night is still below the season average and for the record of this time last year when 11.59 inches had been measured. Normal to date is 12:67. Total for last year was 12.22.

Police Cracking Down On Campbell Traffic Violators

The Campbell Police Department has issued 91 citations for traffic violations from April 1 to 20 inclusive. Police say this is the largest number ever issued by the department in such a short time, and is all a part of their campaign for safer, saner driving in Campbell.

Many of the tickets were given for speeding, others for failing to stop at stop signs, give signals and numerous other acts that tend to cause accident or are a hazard to other drivers. They intend to keep cracking down on the violators until their safety campaign shows good results.

Rotary Club

The Campbell Rotary Club met for the regular Monday luncheon but canceled the program scheduled for the day by the Campbell High School Glee Club so members could attend the funeral of their friend, William Enochs.

Chairman of the day was Cel Gerevas.

Grammar School Open House

"Open House" and installation of officers is on the agenda when the Campbell Grammar P. T. A. meets Monday, April 25, at 7:30 p. m. in the School auditorium.

On the program will be selections by the orchestra under the direction of Ed Tonnini, and exhibition dances by the Social Dancing group taught by Dorothy Wilkinson.

May 13 the Campbell Grammar School will hold a concert with all proceeds going for student needs.

Fireman Rescues Locked-in Baby

Fireman Bill Morgan Tuesday afternoon was called to rescue a crying 16 months old boy who was locked inside his home while his mother and small sister were locked out.

According to the mother, Mrs. Howard J. Redmond of 24 Cypress, her small daughter Velda, 3½, had pushed in the locks on both the back and front door when she and the little girl had gone outside for a few minutes leaving 16 month old Brent inside playing.

After discovering she was unable to open the door Mrs. Redmond had a neighbor put in a call for help which was answered by the Fire Department. In a few minutes Morgan had the door off the hinges and gained entrance to the house rescuing the frightened baby.

EDITORIAL

WHY. OLD SETTLERS DAYS

The files of The Campbell Press tell an interesting story of Old Settlers' Days on through the years, a story of plans, of interests and of experiences in other periods. The Press is well qualified to be this historian in that it, too, is an old timer, being founded sixty years ago.

In 1903 there was a Professor Simon J. McLain here as the speaker in the morning and Judge Myrick as afternoon speaker, saying it started in 1892 with a social gathering and a decision to meet annually. In 1904, Professor Page of Berkeley talked on the "almighty dollar," and the Stanford orchestra and glee clubs provided music.

In 1905 Professor Overstreet talked on "Two Ages of Reconstruction," and Dr. William Windsor spoke on "What is the Condition of our Country and its Remedy." A. F. Palmer of San Jose spoke on the "Possibilities and Responsibilities of California."

In 1906 W. J. Hines of College Park spoke on the "Old Days" and Mrs. E. I. Price spoke on "Our Reading Room and Library." In 1907 Professor Cathcart of Stanford Law Department was the speaker and there was a two-hour concert by the Stanford orchestra followed by Campbell and Los Gatos choral groups. Speaker in 1908 was David Starr Jordan on "The Human Harvest."

The meetings followed somewhat the same pattern, but it was evident that Old Timer Days in Campbell have been able to attract some of the leading men of the Pacific Coast.

For 63 years this has been going on in Campbell and it probably will continue for many more years. Old Settlers' Days bring together old and new friends. Much of the community planning has been done on these days, and some of the young people who listened to talks by early day orators were inspired to go on to great successes in their chosen fields.

WILLIAM BURNS ENOCHS

Campbell lost one of its finest citizens on Friday night with the death of William Enochs, a kindly counsellor and friend to all who knew him. Bill had a tremendous interest in the welfare and progress of Campbell, and he gave unselfishly of his time and talent to shape a city in the three years of its corporate existence.

Bill Enochs was engaged in 1952 as manager of the Campbell Stamp Association, and soon indicated that he not only was a good accountant, but also a good merchandiser. He took over the management of the Chamber of Commerce, injecting enthusiasm and practical services. He seemed to visualize potentialities and was quick to lead groups in affirmative steps. He was never too busy to help others.

Some say that if Bill Enochs had devoted his time and talents alone to a business that he would have amassed fortunes, but his wealth was in friendships. He was dutiful and good.

Bill Enochs knew that the City Council was depending on his counselling in setting up an annual budget Friday evening. It was Robert Kirkwood State Controller, who a year ago had written that for a new city, our annual report, prepared by Enochs, was one of the best on record.

Bill was tired when he returned to his home. He passed away shortly afterwards.

The City of Campbell has lost a fine citizen, one who gave everything that this city may be a better place in which to live.

WATER SHORTAGE

California's greatest problem—water—is heading toward another acute stage, especially in Northern and Central California. Abnormally light snow packs are reported on the Sierra watersheds, and many irrigation districts are planning sharp cuts in water allocations for the late spring and summer. Thus the Golden State, which enjoys such great natural resources except in water, struggles along under this severe handicap, while citizens and state officials argue much but act little on solving the problem.

THE SALK VACCINE SUCCESS

How many hours, days and years have been put in by devoted men of medicine in the search for a vaccine to conquer polio will never be known. But the efforts of all, including their mistakes as well as their progress, have gone into the final product fashioned by Dr. Jonas Salk.

Dr. Salk himself is most keenly aware of the contributions made by others, and he made it a point in Ann Arbor last week to read off the list of those to whom he acknowledeged his debt. It was a long list. This does not in any way detract from the historic work Dr. Salk himself has done. His place in medical history and in the hearts of the American people is assured.

Not the least of the benefits which should accrue from the Salk vaccine is the release from fear which the nation will experience in a large degree as the vaccine is administered on a huge scale from coast to coast. Freedom from fear plays no small part in health, the modern doctor will tell you.

Dr. Dwight H. Murray of Napa, who is chairman of the American Medical Association Board of Trustees, terms the new vaccine "one of the greatest events in the history of medicine." It has cost millions of dollars to bring this event to pass.

The Campbell Gambol

SUNSWEET Prunes will have their 25th year in service with a float in the Old Settlers Day parade, always one of the picturesque entries . . . in 1950 observing the 20th year the float was laden with acacia boughs, as twelve walking ladies with sunbonnets and gay '90 attire showing lace pantaloons at their ankles won first prize, the float having been designed by Dorothy Hoenig and Irma Reese, the brown and gold color scheme with large Sunsweet prune cartons, the yellow acacia blooms giving the background . . . . in 1949, the girls walked in prune box cut outs . . . in 1951 was the Sunny Sweets Music Box, again winning first prize . . . in 1952 there was entered a beautiful float on which 18,000 handmade paper roses were used to create the yellow Sunsweet sunburst and lettering against a red background while last year a garden scene was depicted with trim, green lawn, stepping stones, decorated garden furniture and a 10 foot prune tree in full bloom, the 3400 out-of-season blossoms having been handmade, the car having been driven by Dorothy Hoenig and Myrrl Block while riders on the float in pastel formals were Angie Ciraulo, Eloise Parker, Marie Testa and Dorothy Rodrigues . . . other new floats are being prepared for the 1955 parade on May 1 and there are to be lots of music and colorful marching units.

OLD TIMER DAYS Began here in 1892 with basket lunches, field games and a reunion of people who had chosen Santa Clara Valley as their homes, many coming for miles in surries or on horseback to be present for the festivities, and that was the pattern followed for many years . .. while times and conditions have changed, the type of celebration has also had to be changed, but the general committee does not want to lose sight of the fact that the celebration is a recognition of what old settlers did for Campbell and the spirit of neighborliness which has always prevailed here.

USED HOUSE LOTS Are to be seen here and there down in Los Angeles with dozens of houses on skids, prettied up a little and made ready for inspection by prospective buyers who first acquire a building site, shop for the house they want then have the foundation built and bring along the house.

DAYLIGHT Trip to Los Angeles Saturday saw fields of poppies and lunpins as far south as Atascadero, also some cherry blossoms, while in Ventura County, lemons and blossoms on trees at the same time . . . sportswriter for Los Angeles Times telling of the U. S. C. super-wonderful track team, adds that up north we simply do not produce outstanding athletes any more, saying University of California with 15,000 enrollment can't find 50 in the lot to offer competition to their team representing a university with less than a third that enrollment, and figures it must be the climate or something they have, because California and Stanford hasn't offered competition for ten years or so . . . but that is like their thinking down there—if we have a superior product and dare mention it, they are bound to in some way turn the subject to something else in which they excell . . . like my uncle who lived there since the turn of the century and who came to see me one time and we went to Lassen National Park on a day in which smoke began to bellow from Mt. Lassen and I said to my uncle, "There now, I'll but you have nothing like that down in Los Angeles. Behold the only active volcano in continental United States!" and he replied "Sure shooting out smoke isn't it? No we have nothing like it down there, but we've got a fire department that could put the darn thing out in a hurry."

Fiesta De San Jose To Feature Rodeo

A revival of the community spirit embodied in Fiesta de las Rosa of the 1930's and Carnival of Roses in the late 1890's is the purpose of the Fiesta de San Jose which the Junior Chamber of Commerce is putting on at San Jose all next week.

Among events will be the hobby show, amusement rides, queen contests and entertainment including a championship rodeo in which professional cowboys will participate. The fiesta-rodeo is scheduled for the County fairgrounds, according to Stanley Parton, publicity director.

New Plans For San Mateo Fiesta

"Gazing into the Crystal Ball", the theme of the Twenty-first Annual San Mateo County Fair and Floral Fiesta, was announced today by William M. Wilson, Fiesta manager. Fiesta dates are August 5 through 13.

Exhibits will depict every aspect of world famous peninsula living, the wealth of the county's agricultural yield, its tremendous flower growing industry and its cultural and industrial activities.

Planning new staging for the Fiesta's multi-million dollar flower show is Doug Baylis, who designed last year's successful show. A graduate of the University of California, he was formerly associated with Thomas Church and has practiced from his own office in San Francisco since 1945. He has in work today designs for a twenty-one acre site at Stanford University, a group of model homes in Sacramento, gardens in the Bay area and as far afield as Ohio and New Jersey. Baylis is a regular contributor to House Beautiful and is the author of an eight page insert on "How to Design Your Own Garden" which will be included in the August issue of McCall's magazine.

Cancer Crusade In Need Of Funds

A successful Cancer Crusade will enable our research scientists someday to find the answer to cancer just as the March of Dimes has made possible the answer to polio with the Salk vaccine, C. E. Bradley, local cancer crusade chairman, said today.

In this county alone, over $95,000 was spent by the American Cancer Society in cancer research last year, and $35,000,000 has been spent by the ACS during the last ten years in research throughout the country.

"Research will lead to cancer control as it already has for polio", Bradley added, "but research is dependent upon voluntary contributions."

Campbell goal is $1200 for the month-long crusade.

Donations, which may be any amount, may be sent to Cancer, care of the local postoffice.

CITY LAGGING IN EASTER SEAL SALES

First National Bank Is Growing

The First National Bank of San Jose shows in its Statement of Condition as of April 11, 1955 a growth of $11,348,000 as compared with April 15, 1954. The total resources of the Bank are now $69,583,000, which are the highest figures ever published. Demand deposits were up $6,350,000 and time deposits increased $2,817,000 bringing the total deposits to $65,302,000, or a gain of 20% over last year. Capital stock was increased by 20% and the total capital funds are now $3,592,000. U. S. Government Securities were $19,319,000, $4,710,000 over last year and State, County and Municipal Bonds were $5,738,000 or $2,263,000 over last year. The total resources of the Bank showed an increase of $3,046,000 over their previous all-time high as published December 31, 1954.

During the past twelve months the First National Bank of San Jose has opened four new offices in Los Gatos, Palo Alto, Mountain View and Santa Clara. Each of the Bank's outlying Offices also provides ample parking space, and drive-up tellers windows as well as complete banking services. This marked growth is indicative of the acceptance of the Bank's services by the residents of Santa Clara Valley.

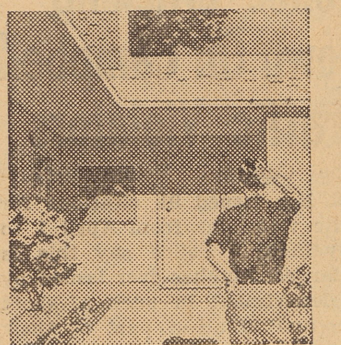
LIKE TO LEARN A NEW GAME?

It's called "Get What You Want," and *the whole family* can play it! First, choose an over-all amount, such as $100, $250 or $500. Then ask each member of your family to choose something he wants, for his share of the total. The rest is simple—start a B of A Savings Account and save *systematically*, making deposits of $2, $5 or $10 a week for one year. In this way you'll have the money before you know it! It's also a fine way to save for a vacation trip or some other large-scale family project.



DOES YOUR HOME NEED ATTENTION?

If so, here's good news! You can fix a leaky roof, build a patio, or make more than 150 other home repairs and improvements with convenient, low-cost *Timeplan* financing. *Do it now* and pay out of income in small monthly instalments—you have up to 36 months to pay. Financing arrangements can be made through your *Timeplan* dealer or contractor—or at our bank.

Buc Varsity Nine Snatches Crucial Game From Indians

In what SCVAL coaches are labeling "the upset of the year", the Campbell Varsity baseball nine won its second straight conference game defeating Fremont 3-1 at Sunnyvale Thursday. The Bucs scored all three runs in the seventh and final inning. The Indians had been picked as a "shoo in" to cop the SCVAL flag for the second year in a row. The Bucs play all remaining conference games at home, against Mountain View, Lick, and Washington.

Campbell pitcher, Bob Sutton, struck out eleven Indian batters and pitched his second straight conference one-hit-game in a row.

Fremont hurler, Kermit Kowalk made the mistake of throwing Buc second baseman, Don Field, a home run ball to open the seventh inning. Then Ron Citta reached first base on an Indian error. Pete Castellanos was safe on a fielder's choice, Phil Arman advanced both runners with a high bounder to third base, and then Buc left fielder, Jim Ryley, drove home Citta with the winning run on a 350 foot fly out. Castellanos also scored when Sutton's bounding ball was missed at shortstop for the third Fremont error of the inning. Coach Mel Stein called this his sweetest victory in two years as Buc mentor.

A joint meeting was then held with the Kingsburg Kiwanis Club. A chartered bus was used to make the trip, an annual affair.

Frosh-Soph Nine Has Winning Ways

by Bob Olson

"Indefatigable" was the word Coach Chuck Crampton used to describe his soph-frosh baseball nine, which came from behind to win over Fremont at Sunnyvale last Thursday. This leaves the junior Bucs tied for the lead with James Lick in the SCVAL frosh-soph standings, and the Comets should meet their first defeat this year when they face Santa Clara's Joe Bara, the best frosh-soph pitcher in the conference. Since the Bucs draw a bye this week, it might be a good time to review Crampton's squad, which in all games this Spring has won seven contests and dropped only two.

GUBSER ASKED TO CONTINUE FIGHT ON FRYINGPAN PROJECT

Branding the Upper Colorado River Basin and Fryingpan-Arkansas projects currently before congress as "economically unjustifiable", "financially infeasible", and "wasteful of water", California Taxpayers' association today urged congressman Charles S. Gubser to continue the good work he has been doing to defeat these unsound proposals.

The proposals now being urged would cost about $4,000,000,000— or about $372,800,000 for the people of California.

For the 403,900 people of Santa Clara county, this would mean an unnecessary tax cost of some $11,707,000, the association dedeclared.

Civilian Defense Tags Available Now In Campbell

Police Chief Robert Locke, Civil Defense Director of Campbell, today announced plans for making Official Civil Defense Indentification Tags available to all children and adults in this community.

The Indentification Tags are authorized by the Federal Civil Defense Administration and are an important safety measure for everyone, Chief Locke said. They provide quick identification which would be helpful in case of accident, sudden illness or any emergency, including air attacks.

Each tag is permanently stamped with wearer's name plus the name and address of the person to be notified in an emergency. The wearer's birthdate and religious preference also are stamped on the smooth metal tag which is carried on a non-tarnishable chain.

Through special arrangements, instructions for ordering Official Civil Defense Identification Tags may be obtained at displays in many grocery stores soon, Chief Locke said.

He also reported that Civil Defense has tried to put this project into effect for three years but has been blocked by lack of personnel and funds. Recently, however, FCDA secured the help of a large food manufacturer in distributing Official Identifications Tags on a nation-wide, at-cost basis.

A total of 200 operations is required to make a lead pencil.

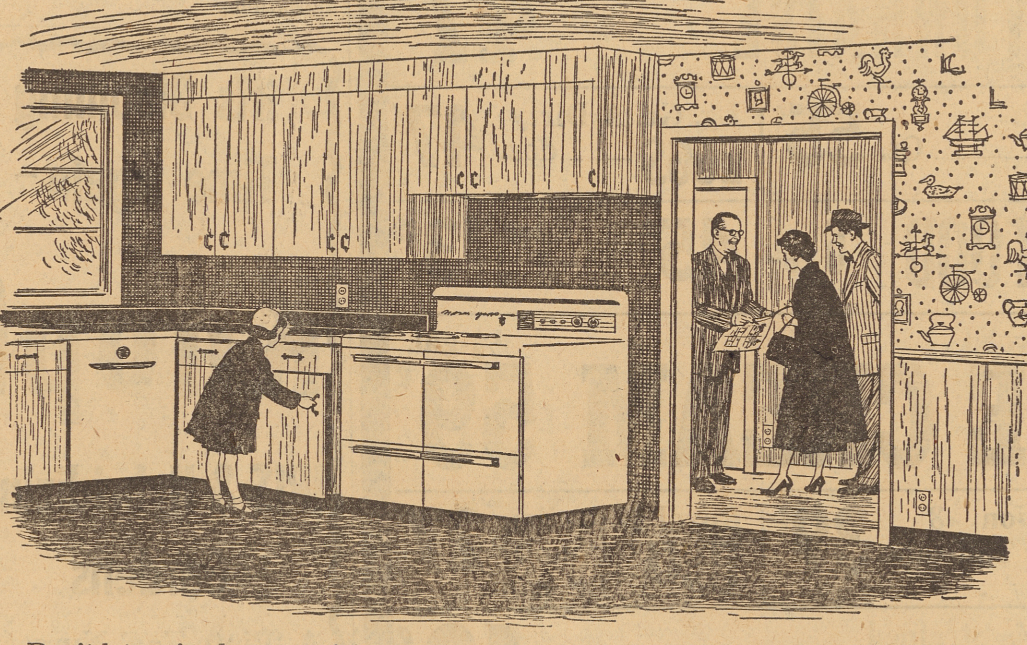
before you buy a new home...

make sure it's wired for modern living!



Don't let an inadequate wiring system take the joy out of living in your new home! Today's living requires adequate electric current—to feed all the lighting fixtures and appliances you enjoy now, or plan to add later. To make sure the home you buy can provide the power you need, insist that your builder give you a "Certificate of Adequate Wiring." It's your proof of a first rate job.

If you're remodeling—ask a qualified electrical contractor to check the wiring. There's no obligation. And if your home needs its wiring system modernized, the small cost can be financed on an easy-payment plan, available at most leading California banks and lending agencies. Make the most of modern living . . . with plenty of power from an up-to-date wiring system!

Electricity is cheap in California!

Army Counselor To Open Office

An office in Campbell will soon be established by M/Sgt. Bernard J. Masterson, USA, who has been appointed to conduct the vocational and educational information service for Army Recruiting Service.

The purpose of this service is to furnish complete correct information concerning the practically unknown 300 job opportunities actually available to young men and women; and the 100 educational career and technical type courses open to, and reserved for, high school graduates who are guaranteed attendance at one of the Army technical colleges or schools.

No application need be made to inquire about some of the present qualifications. A 25 minute preliminary test may be taken if requested.

High school students of the 1955 senior class who think they would like to attend one of the schools after graduation may take advantage of courses now being offered which may not be available after graduation. A statement from their principal saying there is a reasonable chance they will graduate with the present class is sufficient.

The career fields cover over 370 civilian type jobs ranging from automotive engineering, radio, electronics and business administration, to cooking; and from simple to advanced courses. It means earning while learning and often as much fun and participation in sports and athletics as afforded in high school.

According to M/Sgt. Masterson, a letter direct from the Adjutant General, Washington, D. C. of the Department of the Army, to the student applicant scheduling him to attend the course of his choice is his guarantee, and is a binding contract with the government.

For further information phone EL 4-1001 after 7:30 p. m., or CY 5-4174 from 8:00 a. m. to 5:00 p. m.
